

Take a step in the right direction. Join the F.A.S.T. Program

Furr After School Time

Sunshine School is working in collaboration with the Maquoketa School System, and the surrounding community to offer high-quality, affordable before and after school programs that will cultivate our most valuable resource - our children.

Our children will learn something new and challenging every day. Whether they're absorbing a new concept or establishing proper study habits, most kids need help with their studies at one time or another.

Sunshine Staff will work with your child's teachers to provide the basic tools needed in order to excel academically and enhance their learning. There will be homework assistance with spelling, reading and math. The Scheduled Academic Program will include fun and creative ways to further emphasize these core curricular areas.

The F.A.S.T. Program will greatly enhance your child's learning...The Sunshine Staff will be there every step of the way advising, helping and providing your child a safe, fun and educational program.
